"ECO LUXURY" To relax body and mind from hectic city life, we use a wealth of naturally inspired materials in our hotel, while retaining an urban atmosphere. Present-day Akasaka, literally the 'red slope', was formerly known as 'Akanezaka', due to the Akane plant cultivated there and later renamed 'Akasaka'. We use the color of the leaf veins of the 'Akane' plant to decorate our reception area and guest rooms.

Watermark Hotel Kyoto

Experience the traditional Japanese world The world's first Phiten Water implemented hotel

Japanese traditional materials of wood, soil, stone, lattice, and Japanese washi paper are incorporated into the design. The five materials were chosen based on the theme of water and blue, which associates the name of Watermark Hotel, to create a space where they individually stand out.

In the lobby, three-sided project mapping has been introduced to create beautiful images combining Kyoto's sightseeing spots and the four seasons.

The guest rooms are equipped with Keurig, a coffee machine to allow hotel guests to enjoy authentic cafe drinks. They also offer shampoo, conditioner, body soap, and skincare products from a skincare cosmetics brand Osaji, and come with a Simmons' bed, developed to focus on providing sound sleep, and Loft's good-sleep pillows.

H.I.S. Hotel Holdings provides measures to prevent infectious diseases across all facilities by enhancing alcohol disinfection of common areas inside the buildings, securing social distance at the front desk check-in counter, encouraging ventilation, and requiring hotel staff to wear masks. We do not only ensure comfortable stay in this new tourism lifestyle but also provide high quality entertainment.
